GERMANIA DRAMAJIC CLUB.-We have inadvertantly omitted to notice the entertainment given the above club on Tuesday night last. It was a very pleasant affair, affording much satisfaction to to those who were fortunate enough to be present. The plays were well performed, and the entertainment throughout was highly creditable to the club.

Tar Yesterday was another beautiful day. There was nothing about it that savored of the disagreeable. It was bright and pleasant and possessed all the characteristics of a beautiful Spring day. The threshold of the beautiful Springtime.

For the Patriot, Messas Eritors: I understand that the Robertson Dramatic Club will certainly give another entertainment on Wednesday evening next, at the Theater, for the benefit of the poor, and hope to see on that occasion, a house crowded to repletion. Having had the pleasure of witnessing their first performance at Odd Fellows Hall, I am fully confident the Club will sustain themselves beyond the most sanguine wishes of their many friends. I hope the Club will not think me meddlesome if I dare request in behalf of numerous friends, a repetition of that excellent afterpiece entitled Heads or

Eight glad are we to learn that the appearance of the above Association for the object named, is a fixed fact. This will probably be the last appeal this season to the charity of our citizens for the benefit of the unfortunate and indigent, and we hope it will be a thoroughly effective one, nor have we a doubt that it will, the attractions, spart from kindly and cheritable considerations, being abundant at the entertainment, as will be seen by perusing the communication.

Confectionary. - Among the confectionary es tablishments in this city, that of Mr. H. C. Reeves. under Odd Fellows Hall is justly popular. He keeps a great variety of fine and beautiful articles and executes orders for anything in which he deals upon the shortest notice and in admirable style. He supplies balls, entertainments, wedding parties, &c., with cake, and other confectious at very reasonable rates. Besides this he is a very clever gentleman and deserves a liberal patronage.

A GOOD DINNER -A number of invited guests assembled at dinner yesterday at the Restaurant recently opened by S. J. Carter, on Union Street, The tables were loaded with the choicest edibles, as will be seen by reference to the bill of fare which we append. The "goodlie companie" er joyed the dinner and the sparkling wines, and parted in the

PROF. HALE, - Among the complimentary resolutions and recommendations received by this gentlemen, the following sent to him from Charlottsville, Va., are highly commendatory. We publish them not only as an act of courtesy to Prof. H., but because we think they are deserved :

At a meeting of the members of the class, reology, held on Monday, Dec. 20th, 1852, on motion, Messis N H, Massie, Thos. W. Pugh, Jessie A. Watts, N. P. Balls, and A. B. Magruder were appointed a committee to prepare and report resolutions expressive of the approbation entern teaching the Ecience be advocates; and of our high appreciation of the important facts and laluable instruction we have received from his Class | HAVANA, (U. S.) from New York Feb. 27, for Havana. Luctures. And, at a subsequent meeting of the same Class, on Monday afternoon, Dec. 21st, 1852,

the said committee reported as follows-Resolved, That the members of this Electrical Association entertain a very high opinion of the interest and practical importance of the Science of Electro-Biology, and that our highest respect and cornest thanks are honestly due to Prof. Hale for the very interesting, able and profitable Lectures, on that subject, delivered to us by him-Lectures containg facts and suggestions in regard to the pervasive and all-controlling influence of the Electric agent, in the various and complex economy of the homan system, the knowledge of which far outweigh, in value, the time, attention and money which have been expended in its acquisition. Resolved, That Prof. Hale's deportment and character, is our intercouse with him, have been such as to inspire us with high respect for him

personally, as well as for the praise-worthy and concrete mission to which be is devoting his time WATCHES! and talents, and that it affords us pleasure to commend him to the kindness and high consideration of all among whom he may sojourn.

Resolved, That a copy of these resolutions be forwarded to Prof. Bale by the President of this meeting. Unanimously adopted. A. B. MAGRUDER, President. A. H. Massin, Secretary.

Coal. - We learn that a host load of coal arrived last night from Hoskins's mines near Rowens. This arrival demonstrates a proposition which we have heretofore sought to convince this community was susceptible of demonstration, to wit: that coal can be brought from these mines when the from any other mine on the upper Cumberland. The coal is of good quality, as any one can see by examining it to day at the upper landing, where it will be offered for sale. It has been our opinion for a year past that the citizens of Nashville should take steps to secure their supplies of coal chiefly from these mines; because it can be done at less unique and useful invention recently, and though cost there than any where else. We shall have

CROOKER'S MILLINERY ESTABLISHMENT .- Yesterday was the Fall opening day of the above establishment, and prompted by a desire to see something very nice as well as to be in fashion (as nearly every body, we thought, was there,) we went along with the tide and looked at the large and fine display of millinery and fancy goods there to be seen. Mr. Crooker has brought on a very large and varied stock, embracing all the articles belonging to the trade, of every style and quality. THE REIGN OF ART .- In this wonderful age, Art lays her master touches on almost everything. The ceilings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud; makes her machines of wood and Iron, to act as if with knowledge and annihilates space with lightning tamed down to the tutcledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just fallen under our notice, in the shape of a Cathanvic Pill, from the Laboratory of that world renowned

Chemist, Dr. C. J. Avsa. If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the wirfues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold pill which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all the labored perfection they are offered to the Public at less than one centeach. However humble the department, we think this may be cafely characterized as the consummation of Art in
